ROLE DEFINED CAREER TRACKS

JAGSoM follows a step-by-step process to prepare the participants for the target roles:

Step 1: Self Discovery:

Outbound Leadership Lab (OLL) and Psychometric Assessments to enable a participant to discover her/his strengths.

Step 2: Preparation of Individual Development Plan:

This helps the participants to decide on their targeted roles and related Career Track based on strengths.

Step 3: Mentoring:

Mentorship by industry practitioners, who guide participants in preparing for targeted roles.

Step 4: Learning by Solving:

Participants work in groups to solve an industry- supported real-life business problem mentored by a faculty member.

Step 5: Long Industry Internship (IIP):

16-week-long internships as a capstone intervention, in a role aligned to one's career aspirations.

The IIP of the Class of 2022-24 demonstrates the success of this approach, as participants across tracks received offers in their desired roles in companies of repute, as illustrated on the next slide.
